

Allow your children the opportunity to discover their surroundings, the safe and fun way with our endless Rechargeable Electric Scooter.

Model: ES70BL

Rechargeable Electric Scooter

Features

- This powerful electric scooter boasts a 120W power motor and can take the kids up to speeds of 12km/h
- The rechargeable 24V/4.5MaH battery is conveniently fast-charging so there is less waiting and more action-packed adventuring on their schedule
- Within 6 hours, the electric scooter will be fully charged and can take the rider at a maximum distance between 8-10 kilometres
- Complete with a simple throttle system, handbrake, kickstand and reset button for the instance of overload situations, this electric scooter is ready to cruise through the neighbourhood terrains
